Premium Self-Adhesive Visa & Other Travel Papers

*Our multi-faceted (overt + covert) solutions secure,
identify, trace &/or authenticate cross-border documents*

in their fight against

*tampering, counterfeiting, illegal copying/scanning,
forgery, replacing, smuggling, and other document fraud*

STANDARD SELF ADHESIVE VISA & OTHER TRAVEL SECURITY PAPER

A family of fragile natural white, lightweight security bond papers with a permanent acrylic adhesive and a wide range of premier choice and optional add-on security features designed to provide first-class protection against alteration, counterfeiting, forgery, and other fraudulent practices when used on its own or in document labelling applications (e.g., work permit).

1. PREMIER FEATURES (P/N: AM7066TSP)

- Built-in breakability (Self-destruct)
- Chemical alteration indicators (up to 6 indicator stains)
- Invisible UV-reactive fibres (blue)
- Visible fibres (red & blue)
- MICR, OCR, & OMR compatibility. (document originality verification specialised inks)
- Laser toner bond secure (maximum print anchorage)
- Covert UV image compatibility
- Permanent tamper evident adhesive
- 84gsm Kraft backing paper

Availability

- In reels and sheets
 - Size (standard & custom, subject to order volume)
-

2. COMPATIBLE OPTIONAL ADD-ON SECURITY FEATURES & PRINTING PROCESSES

- Pantograph (invisible single/multi-language, single colour/blended multi-colour images). (upon copying or scanning, any hidden message/pattern/grid appears like a watermark)
- Serial/random numbering (with or without a layer of scratch-off over-coating)
- Microprints (fluorescent or metallic threads)
- 2D Barcode and QR codes (digital imaging/identification)
- UV inkjet ink imaging (hybrid of multi-layer security) (bespoke)
- Thermo-chromatic ink imaging (bespoke)
- Bleachable ink patterns (make cutting & pasting impossible)
- Holographic foil images (authenticity verification)
- UV vanishing (finishing)
- Dye bleed through numbering
- Hot foil stamping/Embossing (gold/silver, flat stamp/raised image)
- Track & Trace (2D codes or cloud)

FLEXIBILITY

- **Custom Solutions**: customers may choose features from the proven list in (2) to add to our standard solution to create their unique custom solution (s).
- The paper is designed for both visual and mechanical reading
- The paper not only protects it enables legitimacy or originality verification of its substrates or documents

Applications

- Passport
 - Work & Transit permits
 - Temporary & Refugees travel documents
 - Emergency travel document (Certificate or Permit of return)
 - Recreational Craft Skipper's certificate
-

Paper Storage

- Store flat
 - Store between +20 and 24°C, RH 40 -50% away from dust, heat, moisture, direct sunlight and solvent fumes
 - Because life expectancy varies with temperature & humidity, good storage practice is highly recommended to ensure maximum shelf life in temperate & tropical climates. .
-

How to order

- Return to our web page <https://www.inkribbonpaper.co.uk/request-a-quote> to access our online form to Request a Quote for the standard product (AS7066TSP)
- Complete the form, entering details of your specific requirements. In most cases, we will contact you by email or phone to clarify your requirements before quoting
- Alternatively, call +44 20 85171256 or email enquiries@inkribbonpaper.co.uk
