The company

Development, production and packaging of air fresheners and industrial design of washroom products

Proandre manufactures its air fresheners and washroom products, for domestic and industrial use, in a clean room. We are approved to make manipulations of cosmetic articles and hygiene in our facilities in Spain (European Union).

Proandre products are marketed through specialized distributors in 26 countries. The customers of these distributors are private companies, public institutions and especially collectivities (hospitals, residences, schools, hotels, restaurants, shopping centers, airport, etc.) that have spaces

for public use and they need to equip them with products that provide hygiene and comfort.

We offer products for an integral equipment of the washrooms. Our specialty are bacteriostats, hygienic containers, air fresheners / nebulizers, hand foam and gel soap dispensers, ozone generators, hand dryers, insect catchers lamps, paper dispensers and professional cleaning chemical products. Many of these products, with their own design and development, are patented and have an excellent recognition in the market. We work every day to optimize and continuously improve our articles, to offer our customers greater competitive advantages and personalized attention.

Specialized in large spaces air fresheners. This new line has positioned us as experts in the manufacture of fragrances and soaps, with our own formulation. We manufacture soaps and hygiene products for professional airlines and hotel chains, which are customized according to customer requirements and their own image.

We offer our clients a personalized service for the creation, manufacture, logistics and distribution of hygiene products, cosmetics and perfumery, with their own brand.

“For the client, we create their own line, carrying out a complete tailor-made project, from the development of personalized formulas, to putting it on the market.”

“We advise the client in the final design of the product, in image and quality elements (packaging, formats, labeling, cartoning ...), meeting the expectations of the consumer.”

“At the time of manufacturing we prioritize the needs of the company, manufacturing affordable quantities in short series and in different formats.”

“We also manage the necessary documentation before the sanitary authorities for the exit of the product to the market. We provide technical, legal and commercial advice throughout the whole process.”

Products protected by industrial patents and marketed with own brand.

ProanPlus Auto Sanitizer

Take care of your business aspect

- Eradicates the proliferation of germs and bacteria by removing bad odors.
- Ensures deep cleaning of plumbing, bathrooms and urinals. Programmable to 30 or 60 days.
- One ProanPlus cleans up to two urinals / toilets at a time.
- Exclusive bacteriostatic formula with two-in-one refills: cleanses and perfumes, always generating visible foam.
- Available Refills 600 ml | Duration 30 to 60 days.
- Security guarantee: With built-in lock
- Automatic periodic dosing. Programmable for 30 to 60 days.

Chemical formulation with 7 fragrances

Passion Fruits, Tangerine, Upper Tangerine, Pine, Mango, Just Washed, Proflower.

Biological formulation with 2 fragrances

Proangreen, Proanlip

Mounting

Screwed to the wall or glued with adhesive tape.

Technical Data

25 X 12 X 9.5 cm | 545g | ABS Polyurethane | Carries 2 LR20 alkaline batteries

The biological enzymes respect the environment.

- ✓ Eradicates water sediments, eliminating the causes of bad smell naturally.
- ✓ Completely biodegradable.
- ✓ ProanGreen is a biological product. Natural formulabased on enzymes that decompose organic matter by drainage effect.
- ✓ The enzymes multiply creating a protective bio-film that guarantees the permanent degradation of the organic matters.
- ✓ Eliminates the causes of bad odor, cleans and maintains the pipes, using microorganisms that take care of the environment while sanitizing.

ProanLip

ProanGreen

ProanSoap Soap Dispenser with gel or foam

The ProanSoap refills are manufactured in a clean room

- Save up to 40% compared to traditional liquid soaps.
- Packed in hermetic pouches or cartridges that prevent the manipulation and contamination of the content.
- You can choose the product in gel or foam format.
- Anti-drip valve that prevents the waste of the product.
- Built-in security lock.
- Translucent window for a correct consumption control.
- Manual dosage. Easy to recharge and clean.

Mounting

Screwed to the wall or glued with adhesive tape.

Technical Data

11 x 27.5 x 10 cm. 454g. | ABS and Polyurethane.

Valid for various uses (800ml)

- Prohand hand soap
- Dermo hand soap
- Antibact hand soap
- Hand Sanitizer (eliminates 99% of the bacteria in the hands)
- Toilet Seat Cleaner.

Ecolabel

The Ecolabel accreditation guarantees that our products have a lower environmental impact, guaranteeing our involvement in a sustainable economy for both consumers and manufacturers.

Shower dispenser Soap

- Available in black or white for wall with practical and modern design that perfectly integrates in any bathroom.
- The soap gives off a light fragrance that provides a pleasant feeling of cleanliness. With a single dose it's sufficient for a proper sanitation.
- It incorporates a transparent vertical strip for the correct control of the content.
- As well as an anti-theft security lock and an anti-drip valve that prevents product waste.
- Easy to use, just press the soap bottle so that the container ejects the right amount of product.
- Ideal for hotels, companies, offices, commercial locals, hostelry, education, health, gyms...

Mounting

Easy installation. Adhered to the wall with adhesive tape or drill.

Technical Data

Size: 14,4 x 6,3 x 7,4 cm

Capacity: 300 ml

Color: Black, White

Urinal screens

Releases the fragrance when in contact with water or fluids

- New dotted design that avoids annoying splashes.
- Urinary filter designed to avoid passing foreign bodies (cigarette butts, gum, etc.) that are thrown into the urinals, avoiding the obstruction of pipes.
- Absorbs the usual bad odors characteristic of wall urinals and gives off a soft fragrance on contact with water or urine.
- Ideal for all types of urinals in high-use public bathrooms.

4 Colors available

Orange, Red, Blue, Gray.

4 Fragrances available

Tangerine, Passion Fruits, Proflower, Just washed.

Technical data

15.5 cm diameter

Gross Weight: 33 grams

Flexible PWC

DoubleAir Air Freshener with double aerosol

Envelope and permanent aroma

- Make your customers remember you by the pleasant smell of all your rooms.
- The combination of two fragrances allows you to always perceive and enjoy the perfume.
- Automatic and programmable air freshener that adapts to the transit of each room.
- Its new high performance design sets spaces up to 60 m²
- Automatic programmable dosing at spray intervals from 1 to 90 min.
- Light indicator.
- Built-in security lock

Mounting

No need for a drill (tape).

Effective for

Spaces up to 60 m².

Technical data

8.8 x 25.2 x 14.5 cm | Gross weight 750g. | ABS Polyurethane.

Ozone generator (wall mounted)

Ozone generator biological protector

Ozone is the best way to eliminate odors

- The Ozone O_3 destroys by oxidation bacteria, viruses and germs in general, turning contaminated environments into oxygenated and respirable. Avoid infections and allergies.
- Thanks to the ozone released, the risk of biological and chemical contamination is minimized.
- Natural deodorizing function, avoids Labor Health problems.
- Extends the life of fresh foods in commercial areas.
- Eradicates nitrous odors, including tobacco, in an ecological and efficient way. For maintenance of odors.
- Recommended for garbage spaces, industrial kitchens, supermarkets, hospitals and high contamination points.
- Programmable activation.
- It allows to establish a period of operation.

Technical data

220 x 370 x 90 mm.

Assembly: Screwed to the wall.

Voltage: 12 V.

Eliminates odors

Portable ozone cannons

Ozone cannons biological protector

Effective, ecological, healthy and economical

- Ozone is the most powerful natural odor eliminator.
- Indicated for possible shock treatments, eliminates odors (including tobacco) and sanitizes interiors such as rooms, vehicles, gyms, restaurants, hotels, cinemas, clinics, hospitals, bathrooms and stores among others.
- Ozone O_3 destroys by oxidation bacteria, viruses and germs in general.
- Ideal for cleaning cars, bin rooms in hotels, smoking areas and cinemas among others.
- Made of high quality stainless steel, with professional characteristics to work under the most extreme conditions.
- Powerful air jet, flow 175m³ / hour.
- Compact and filtered air for lasting longer components and device maximum durability.
- Designed for impact sessions that need big ozone capacity in short periods of time.
- Does not require installation or maintenance.

Technical data

24 x 17.5 x 19.5 cm. / 3 kg
Voltage 230 V - 50/60 Hz.
Consumption: 25W

Ametpro Ambient air odor neutralizer

New

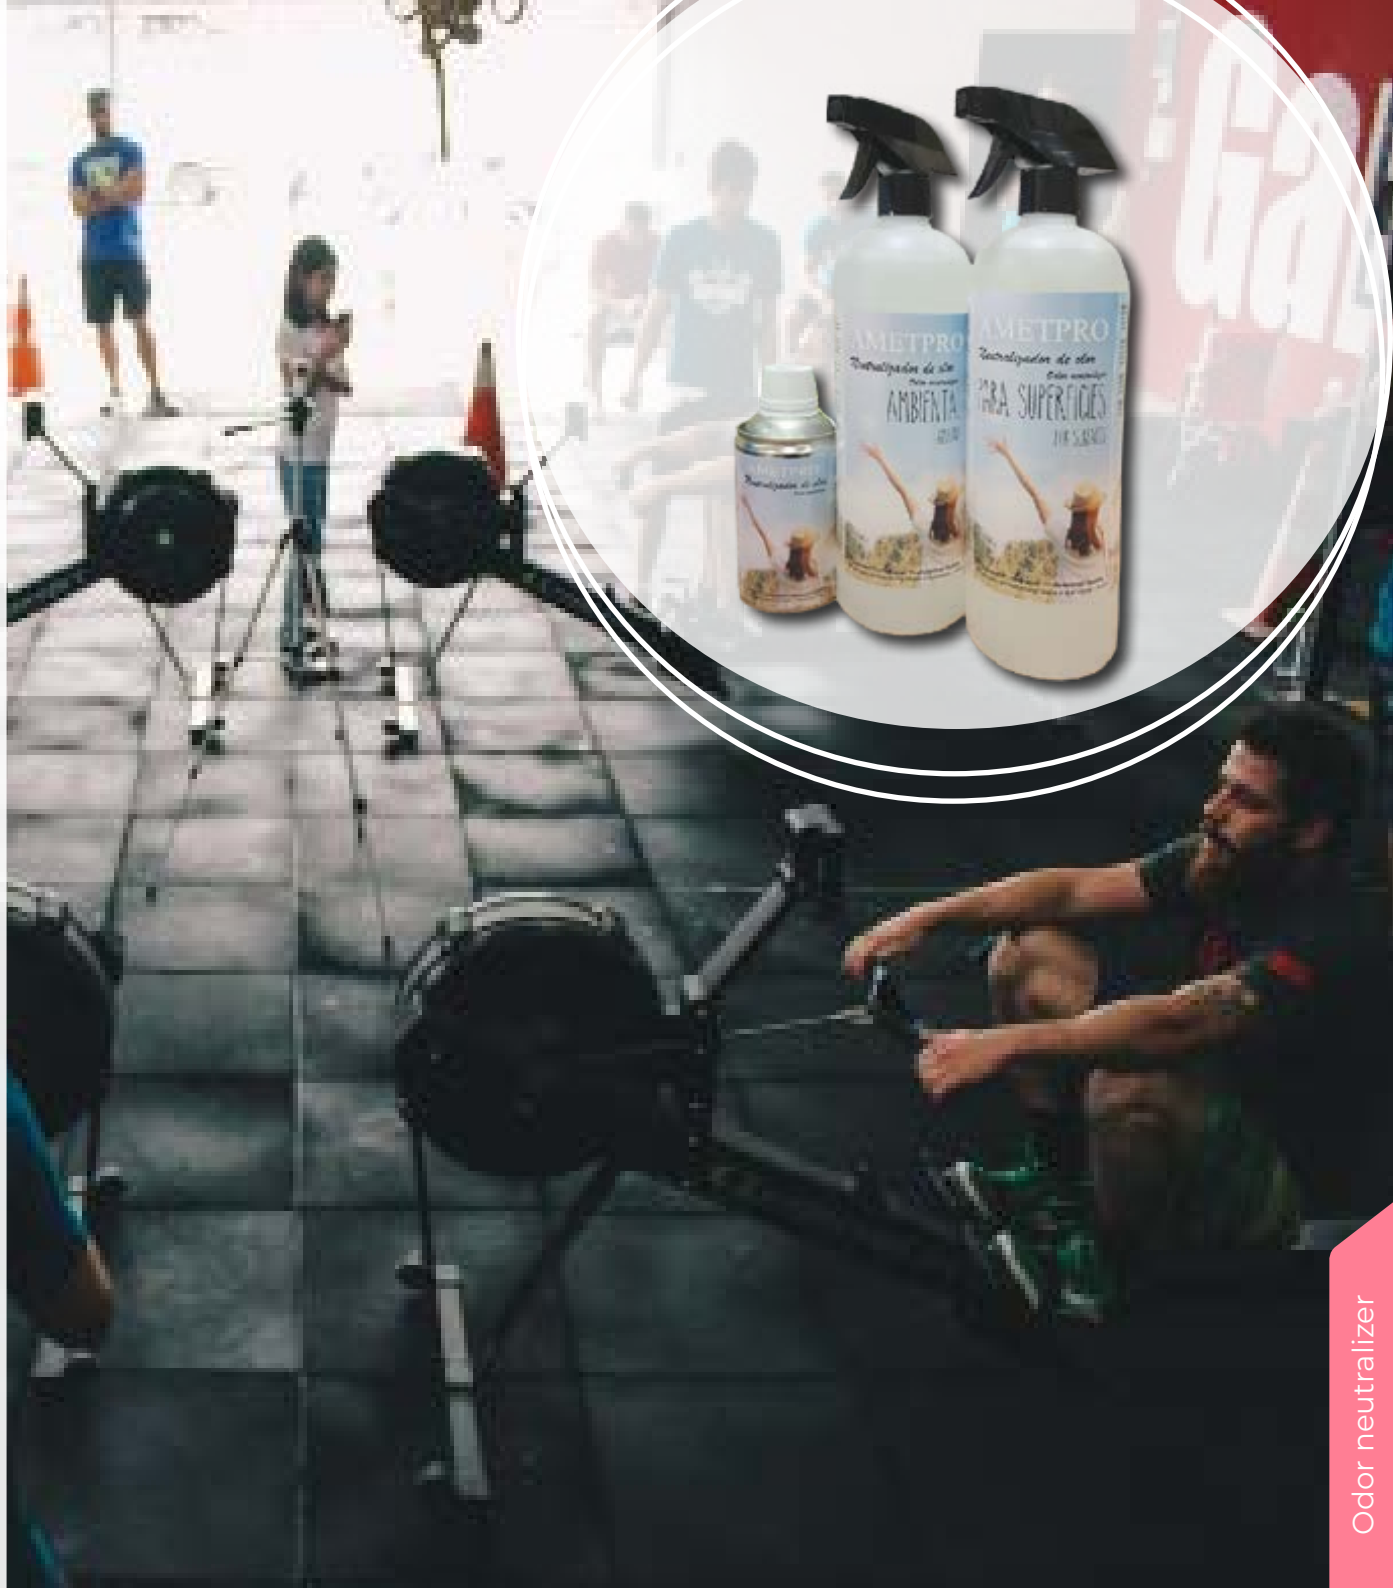

Neutralizes bad odors in a fast, safe and efficient way

Ambient Odor Neutralizer

- Product designed to combat odors, both in open and closed spaces (by applying in the air)
- Neutralizes odors caused by garbage, fumes, pipes, fried, smell pets, etc.
- The special blend of essential oils and natural plant extracts contained in Ametpro are completely biodegradable, with zero impact on the environment.
- Does not contain GMOs (Genetically Modified Organism) nor products of animal origin.
- Available in manual sprayer (1 liter) and aerosol (250ml).

Surfaces Odor Neutralizer

- This other neutralizer works by applying it on the surfaces (not air).
- Neutralizes odors from floors, buckets, containers, etc. from waste, industrial processes and pet areas.
- Safe product for both human health and the environment.
- Natural product based on essential oils and natural plant extracts.
- It does not mask odors, but neutralizes them leaving the air clean with a soft natural fragrance.
- Available in manual sprayer (1 liter).

Automatic Sensor

Ffuuss New generation hand dryer

Ffuuss combines an innovative design with the latest technology

- Access usage statistics from the mobile APP and its Bluetooth telemetry system.
 - Silent alarm warns: water tank full or technical failure.
- LED system
- The HEPA filter with antibacterial additive provides high standards of disinfection and hygiene for the most demanding environments.
 - Children and people with reduced mobility have easy access to the lateral activation sensor.
 - 5 year warranty or 200,000 cycles.
 - Latest technology with 5 patents for use.
 - 6 Colors available.

Mounting

Screwed to the wall.

Built-in power supply.

Power 1100 w - 1000w.

Technical data
