

L Legacy International United Ministries, Inc.

Introduction - General License

Introduction to the course.

For each ministerial level of licensure, new applicants are required to complete this credentialing training series to obtain ministerial license with *Legacy International United Ministries*.

- Each applicant must read the Bible at each licensing level.
- Each applicant must read the *Legacy* Manual at each licensing level.
- Each applicant must complete the training series for their credentialing level.
- Each series consists of twelve (12) courses.

For each course, students are expected to read the textbook or lesson, watch any video sections, and complete the assessment. You have three opportunities to take the assessment test. You must score each assessment with an 80% or higher marking in order to successfully pass each licensing level. All assessments must be submitted by email to the Superintendent of *Legacy* Ministry Division, Rev. Warren R. Tryon, Jr. at pastor@nbupc.org.

Upon completion of each course you will be issued a certificate of completion. Once you complete all courses in the credentialing series, you will receive a transcript of your grades and General License certificate of completion.

Taking these courses does not imply that you will receive a ministerial license with *Legacy International United Ministries*. Once you have completed the course entirely, you will submit your application with your transcript to the *Legacy* Board of Directors for consideration in their next board meeting. If your application is approved, we will notify you in writing and will provide you with a General License certificate and wallet credentials.

Each applicant must consent to a background check. Foreign applicants must complete a questionnaire.
